Who we are

ABOUT US

We are a **company that provides comprehensive & innovative solutions** in an ever increasingly dynamic and demanding world.

Committed to quality in agricultural and livestock production in Argentina, we have expanded our high efficiency standards onto storage services, transportation and commerce of our products and by-products both in local and international markets, prioritizing our main asset: solid ties between suppliers, customers and consumers.

Our Mission

Contribute to a **network-based work model** that promotes sound company growth, driven by the values of integrity, excellence and innovation.

We are Experience.

Over the years, we have worked with dedication and professionalism on every link in the production and commercial chain, thus becoming market referents.

We are Connection.

Our connective work model allows us to generate a network of bridges that provides new business scenarios.

We are Innovation.

We generate creative solutions to common problems, thus enabling our customers' reliable growth.

OUR MISSION

We Are Commitment

We become involved in every community where we work, delivering conscious production in harmony with nature.

WE ARE BELGRAINS

CSR

In Belgrains our commitment to good practices is daily renewed, optimizing available resources and working in alliances: we engage our customers, suppliers and consumers to realize the common good through a virtuous dynamic.

We carry out conscious production in harmony with nature wherever we are present, with social projects aimed at improving education, health and the environment.

belgrains

Social responsibility
is evidenced
through the outcome
of our daily
commitment.

Agriculture

BUSINESS

We grow over 15,000 hectares of traditional crops (soy, wheat, corn, barley and sunflower) in Buenos Aires province, in the localities of Olavarría, Saladillo, General Alvear, 25 de Mayo and Tapalqué. **We deliver a safe and sustainable production,** promoting efficiency through the best balance between land, assets and applied knowledge.

INTELLIGENT AGRICULTURE

We have incorporated into our vision **information technologies that apply solutions in crop management** to attain in depth reading of the entire process and thus stand closer to precision agriculture.

belgrains

Livestock

We work comprehensively, **connecting the different livestock business** units to reach maximum efficiency, optimizing resources and enhancing results.

Bovine capitalization.

Animal welfare and good management practices.

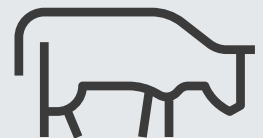

Feedlot.

28 pens, with 2000 linear meters of feeders in La Magdalena Establishment, in the locality of 25 de Mayo, with automated mixers as well as mounted on trucks. In 120-day cycles, 10,000 annual steers are produced.

Breeding and rearing.

Over 6000 hectares allocated to livestock raising.

BUSINESS

BUSINESS

Commercialization

As a result of being a consolidated organization with vast experience in the agricultural and livestock business, our legumes, seeds, cereals and oilseeds, by-products and derivatives are **present in the domestic market and, through exports reach various international destinations.**

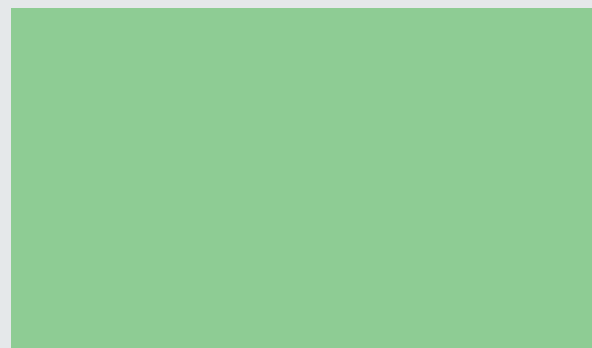

Mill

Located in 25 de Mayo in Buenos Aires province, **our mill manufactures and markets Wheat Flour 000 and Wheat Flour 0000 and Semolina** under Las Hortensias brand.

By-products

Among the by-products we have flour, brans and pellets.

Storage

SERVICES

We boast a strategic network of storage facilities located in Álvarez in Santa Fe province and in Saladillo, Olavarría and 25 de Mayo in Buenos Aires province, **with a total storage capacity of 46,000 tons.**

Sowing, harvesting & spraying

We provide grain and oilseed sowing services, technical assistance and provision of fertilizers, agrochemicals and seeds.

Conditioning & process

With cutting-edge technology and machinery, we guarantee food safety by reaching the highest safety and hygiene standards.

Grain analysis & quotation

We examine each grain for its maximum potential.

Transportation.

Our truck fleet ensures logistics tailored to every need.
